Dear Dave Shelton:

Enclosed are the results of the building rubble samples that were taken on February 16, 2000.

EPA regrets the delay in getting the results to you however, our Las Vegas Lab was extraordinarily busy due to required analysis over the Las Alamos and Hanford fires and those samples had to take higher priority over the building rubble samples.

If you have any questions or concerns please feel free to contact Mark Aguilar at (303) 312-6251.

Sincerely,

Timothy Redher,  
Team Leader, Rocky Flats
